Summary

Software Engineer with a proven ability to work creatively in both small and large teams. Proficient in Java/J2EE, Spring Boot, Microservices, MySQL, and Oracle, with one year of hands-on experience in backend development using Spring Boot. Adaptable to various tech stacks and skilled in engaging effectively with clients and stakeholders. Eager to contribute to innovative software solutions in a dynamic engineering role.

SKILLS

Backend Technologies: Java | Servlet | Spring Boot | Spring Security | JWT | RESTful APIs | Microservices

Database Management: MySQL | PostgreSQL | Oracle | JDBC | Hibernate ORM | Spring Data JPA

Frontend Technologies: HTML5 | CSS3 | Bootstrap 5 | Angular | Thymeleaf | JSP

Version Control Tools: Git | Bitbucket | GitHub | Maven

API & Dev Tools: Swagger | Postman | IntelliJ IDEA | Eclipse | VS Code | NetBeans | Tomcat Server | Windows

Soft Skills: Communication | Problem-solving | Teamwork | Adaptability | Growth mindset | Work ethic

EXPERIENCE

Sapphire Consulting Services, Jamshoro

JAN 2025 - Present

Associate Consultant – Java Developer

- Led the development of a complete microservice named mvrservices for the MVR system, handling third-party API integrations for external stakeholders.
- Worked full-time on the MVR project and provided part-time support for Pakistan Reinsurance Company when additional work was required.
- Designed and implemented multiple secure REST APIs using Spring Boot, Spring Security, and Oracle for both internal and third-party use.
- Played a key role in the Tax Collection module, including backend logic and full Angular-based frontend UI implementation.
- Collaborated across teams, managed cross-project responsibilities, and ensured timely delivery of critical components.

Sapphire Consulting Services, Jamshoro

JULY 2024 – DEC 2024

Trainee Consultant – Java Developer

- Selected for MVR (Motor Vehicle Registration) project in just the second month of training based on performance.
- Contributed over 70-90 commits during the trainee period, handling real-time module development, testing, and production bug fixes.
- Took ownership of complex backend tasks using Spring Boot, Oracle, and REST APIs.
- Collaborated with senior developers in sprint cycles, actively participating in code reviews and implementing feedback.
- Demonstrated quick learning ability and adaptability to professional development workflows.

Institute Of Imagine Technology, Hyderabad

FEB 2022 – DEC 2023

Java Trainer

- Delivered Java programming courses to students at beginner and intermediate levels.
- Designed assignments and hands-on lab exercises using Java SE and JDBC.
- Helped over 100+ students build small Java-based applications and prepare for entry-level developer roles.

PROJECTS

[Bitbucket](#)

Music Streaming Service (FYP)

Spring Boot 3, Spring Security 6, Hibernate 6, Angular 15, MySQL, JWT, Bootstrap 5, Angular Material

- Built a full-stack, video-based music streaming platform enabling local artists to upload, manage, and share their content.
- Implemented secure user workflows including JWT authentication, role-based access control, email verification, and OTP-based password reset.
- Developed backend features like video upload with thumbnail, public/private album creation, and user profile management.
- Created responsive UI using Angular, Bootstrap 5 with dynamic components like video cards and album filters.
- Added interactive features such as video view tracking and like/unlike system with real-time UI updates.

EDUCATION

University of Sindh, Jamshoro, Sindh

JAN 2020 – DEC 2023

Bachelor of Science, Computer Science

CERTIFICATES

National Vocational and Technical Training Commission NAVTTC

JUN 2021 – DEC 2021

Oracle Enterprise Resources Planning

National Vocational and Technical Training Commission NAVTTC

MAR 2022 – SEP 2022

Mobile Application Certificate

Imagine Institute of Science and Technology, Hyderabad

MAY 2022

Award for Best Performance in Java Programming
